

Cable clips 2D

for labelling of patch cords

Description

The Cable clip 2D is suitable to be attached to already existent (cabled) patch cords or can be ordered together with new patch cords as a pre-assembled addition.

Each cable clip can be moved to an easily readable position.

No slipping down from a “hanging” patch cord.

Text on self-laminating label.

Its design makes it suitable for bar code labelling Versions:

- Cable clip 2D to be attached to both sides of an existent patch cord (can also be assembled to already connected patch cord - see fig. 1)
- Cable clips 2D, pre-assembled to a newly ordered patch cord, optional with standard serial number and 2D bar code (see fig. 2) or with customised text (see fig. 3) and/or 2D bar code (available on request)

Versions

Material number	Product	Weight [kg]	Packing unit
