

INNOVATIVE,  
TAILOR-MADE SOLUTIONS  
FROM DATWYLER

# OUR NEW COMPLETE CAT.6<sub>A</sub> UNSHIELDED SOLUTIONS FOR YOUR IT-INFRASTRUCTURE

Datwyler IT Infra offers a complete portfolio of unshielded Category 6<sub>A</sub> products for customers who require a high-performance, unshielded copper data network. The range includes thinner, more flexible U/UTP data cables, patch cords, RJ45 modules, patch panels and data sockets, which can be used to set up a highly reliable class E<sub>A</sub> structured building cabling system.

Category 6<sub>A</sub> cables and connection technology are still the first choice for many companies around the world. They enable high transmission rates of up to 10 gigabits per second and allow the integration of speech (Voice-over-IP), video (CCTV) and other multimedia applications, offering reliable support for your building management systems and IT.

SAVES TIME  
IN ASSEMBLING  
AND  
INSTALLING!

## Features of our new enhanced performance

### CU 692 4P Cat.6<sub>A</sub> UTP cable design

- More flexible and thinner outer diameter
- Easy to strip and to install
- Fulfills the highest CPR fire rating (B2<sub>ca</sub>)
- Available on 500 m drum packaging to reduce waste
- Robust cable design with reliable electrical performance

### Contents of "sustainable" sample bag
